Petition to Remove Congressman Howard Coble and Support Civil Liberties for All Americans – http://removecoble.yellowworld.org

To the U.S. Congress:

On Tuesday, February 4, 2003, Congressman Howard Coble (R-North Carolina) expressly justified on public radio our country's exclusion, removal, and detention of 120,000 Japanese-Americans during World War II in light of concerns for national security.

Just as it was then, today our nation is confronted by the nascent specter of what the Congressional Commission condemned as "race prejudice, war hysteria and a failure of political leadership" towards its own people.

Therefore, we have formed this petition:

1. To demand that Rep. Howard Coble and the Subcommittee on Crime, Terrorism and Homeland Security each issue an immediate, official and published apology, and;
2. To demand the immediate resignation of Rep. Howard Coble as Chairman of the Subcommittee on Crime, Terrorism and Homeland Security, and;
3. To demand that necessary remedial actions be taken by the U.S. Congress and its members to inform the American public – through education, commercial and political advertising – that the basis of the Japanese American internment was racial prejudice and war hysteria, and that similar actions taken towards any Americans would be an injustice to all Americans.

Sincerely,

The Undersigned
